

Personal Space

Now more than ever we need to remember Personal Space. The Government rule is that we need to stay 2 metres away from each other. We must do this at all times. This means we need to be 2 metres apart on the playground, the field, in the gym and in our classrooms. We need to remember to be careful in corridors, as well as when we arriving at and leaving school. We need to be 2 metres apart in the dining room as well.

Wash Your Hands

We must remember to wash our hands regularly. There are bottles of antibacterial gel around school that you can use too. You will be reminded by staff when you need to wash your hands and you must follow this instruction.

My Stuff, Your Stuff

At the moment it is really important that we don't share belongings with other people. Normally it is really supportive to share our things but at the moment we need to remember that sharing belongings might help spread germs. This means that the things you are given to work with or do activities with are only for you to use. Everyone will have their own things (in some places this might include desks and chairs).

Catch it, Bin it

We always throw our germs away. We must do this at the moment. We need to use tissues and cover our mouth whenever we sneeze or cough. We must throw the tissue straight in the bin and wash our hands or use antibacterial gel straight away.

Show Support

The Corona Virus is affecting people in different ways. Everyone has their own reasons for staying safe in a particular way. Some people might need to wear gloves or masks, some might not be able to come into school at all at the moment. We are all staying safe in our own ways and we need to remember to show support and be respectful.
